

*Bringing guitarists to a whole new level of 'play'*

Dear Student,

Congratulations! You have made to the 3-month mark in lessons. This is a landmark because the first 90 days is usually the hardest for students for a variety of reasons. Everything gets easier from here! :)

In the first few months, it is normal to wonder whether taking lessons with Guitar Lessons Ithaca is good investment for you. There is an audio message from me on your student page called "**Student 90-day Anniversary Message**," in which I discuss topics that are important aspects for new students to evaluate such as:

- Getting a perspective on how to evaluate the lessons
- How you fit in with our school
- Your likelihood to succeed
- The rate at which you are progressing
- What you're being taught
- How you're being taught
- The credentials of the teacher
- Your commute
- Your overall commitment

I encourage your feedback about the audio as it relates to these topics, or any others you wish to discuss. Congratulations again, and I look forward to helping you reach all your musical goals as quickly and easily as possible.

Best,

Dennis
