

Bringing guitarists to a whole new level of 'play'

Dear Student,

Congratulations! You have made to the 2-year mark in lessons. You have demonstrated real perseverance, loyalty, and self-discipline. Because of these, your long-term success as a guitarist is practically guaranteed, it's just a matter of defining what 'success' looks like to you and then continuing to pursue it as unwaveringly as you have already demonstrated.

To help you along, there is an audio message from me on your student page called "**Student 2-Year Anniversary Message**," in which I discuss topics that are important aspects for new students to evaluate such as:

- Customizing what you want to do
- Becoming a well-rounded musician
- Playing with many different people
- Upgrading your gear
- Keeping your practice routine efficient
- Learning from other sources
- Keeping in mind the big picture

I encourage your feedback about the audio as it relates to these topics, or any others you wish to discuss. Congratulations again, and I look forward to helping you reach all your musical goals as quickly and easily as possible.

Best,

Dennis
