

Bringing guitarists to a whole new level of 'play'

Dear Student,

Congratulations! You have made to the 7-month mark in lessons. The period between 6 and 9 months is pivotal because students at the stage begin to capitalize on the foundation they have built and really start to come into their own as players.

There is an audio message from me on your student page called "**Student 7-month Anniversary Message**," in which I discuss topics that are important aspects for new students to evaluate such as:

- How to best build upon the foundation that you have laid
- The behind the scenes work that contributes greatly to your progress
- Establishing a customized repertoire
- Going deeper into your favorite players' styles
- Setting & achieving short-term and long-term goals
- The magic of prepared pieces
- Taking advantage of the Guitar Lessons Ithaca community
- Taking advantage of perks of your membership
- Upgrading your guitar or add to your collection

I encourage your feedback about the audio as it relates to these topics, or any others you wish to discuss. Congratulations again, and I look forward to helping you reach all your musical goals as quickly and easily as possible.

Best,
